

Information for  
patients and  
carers

**Hand Therapy**

**Splints**

You need to wear it:

All the time and do not remove

During the day:

For specific jobs such as: \_\_\_\_\_

At night only

This is the case for: \_\_\_\_\_ weeks/ months.

## Splint care advice

To clean the support (remove any metal bars first) hand wash with a little detergent and air dry only (do not use heat to dry it). Return to wearing only when dry. Thermoplastic splints can be wiped clean. Do not wash at high temperatures as this will change the shape.

Your splint has been fitted and provided for your use only and must not be used by another person. If your splint becomes ill-fitting e.g., too tight, too loose, too worn or needs the strapping replaced please contact the hand therapy department.

Splint Manufactured / Fitted by:

\_\_\_\_\_

Our prefabricated/off the shelf splints comply with CE/UKCA safety regulations.

## Feedback about the care you have received

We are always striving to ensure we provide the best possible care and improve our services based on what our patients tell us. We would really appreciate a few minutes of your time to complete a short anonymous survey by scanning the QR Code on the next page. Paper versions are also available in our department next to the anonymous drop box where you may post the feedback.

### THE NHS FRIENDS AND FAMILY TEST

Have your say to improve your care. We would like your feedback on the care or treatment you have received today. Put us to the test and tell us what is working and what we can improve. You can say what you think as we do not ask for any of your personal details. The feedback will be used to plan and implement improvements to our services.

THANK YOU for taking the time to complete this survey.
