

Information for patients and carers

Fulwood Audiology Centre Children's Clinic

(A visit to clinic)

A decorative graphic at the bottom of the page consisting of three overlapping, wavy bands of blue color, transitioning from a lighter blue at the top to a darker blue at the bottom.

The audiologists and doctors at Fulwood Audiology Centre know all about ears and hearing. They look after children like me.

I could walk or go by car, bus, train, or taxi.

The Fulwood Audiology Centre is in this building.

I go to the Paediatric Audiology desk.

When I press the buzzer, someone will come to the window to talk to me.

This is the waiting area. I wait here until my name is called. It might get noisy and busy but it's okay because I don't have to stay long.

One of the staff will call my name when it is my turn.

My family or carers can come too

I then go down the corridor to the clinic room.

We sit on chairs to play listening games and do some talking.

The listening games are fun. I play with toys and I might wear headphones like these.

The audiologist or doctor will look in my ears with a special torch like this.

The doctor or audiologist might use some different equipment like this. I do not need to be worried, they will show me everything and it does not hurt.

When we have finished, I will get told all about my ears and hearing.

When the appointment is finished, I can go home.
