

Coronavirus:

Neonatal Unit Visiting Guidance

Please kindly note that as from 15th September 2020 we have made the following changes to the visiting arrangements within the neonatal unit:

- Both parents can be present with their child so long as they are part of the family bubble
- Masks should be worn by parents on the unit
- Masks may be removed for short periods at the cot side where parents are able to socially distance by 2 meters from staff and other parents / cots
- Parents are asked to remain by the cot side as much as possible and will be asked to leave the room when other infants are being examined on the ward round
- Frequent handwashing should be maintained
- Please inform the nurse immediately if you are resident with your child and develop any of the symptoms of coronavirus

Please kindly note this advice has been issued in response to the current Covid-19 guidance to minimise transmission of the virus further and will be reviewed in due course. You can discuss arrangements with the nurse in charge if you wish.
