

My visit to the hospital for a glasses test.

I will come to the hospital check in at the reception and wait in the waiting room

I will be called in by one of the orthoptists (wearing purple)

The orthoptist will check how well I can see with each eye

I will then have some eyedrops put in my eyes

I will wait in the waiting room and wait for the eye drops to work

The optometrist will call me in to play with a shiny light and tell me if I need glasses
