

## **Preston Pharmaceuticals Pricing Information for 2025**

From 1st April 2025 Preston Pharmaceuticals Manufacturing Unit will be making some changes to the product pricing structure for the following lines:

Manufactured Paracetamol Liquid

Liquid and solid dose packing done within cleanrooms

Overlabelling and Re-packing

Many external factors have determined that a price review is required. Cost pressures continue to increase such as consumables, utilities and overheads. As a result, we have reviewed our product processing cost prices, and this means you will see an increase of:

£35.33 per bottle for our Manufactured Paracetamol Suspension

£1.12 per product for Packed down Liquid products

~ £0.30 per product for Over-labelled and Pack down products

We also take the opportunity to thank you for your valued custom and understanding. Should you have any queries or wish to discuss your individual requirements, please do not hesitate to contact Customer Services.

1<sup>st</sup> April 2025
